Dico Notice of Disapproval 3-06 Report 29.docx

Erin:

After some thought, I added some additions to the cover letter and one small change to the comment portion. I felt we needed some additional language to explain why EPA cannot approve a document that contains conclusions either EPA disagrees with or are unsupported by data.

Call if you wish to discuss.

Subject: Dico Disapproval Letter for your review

Scott, attached is the Dico Disapproval Letter for the last report. I talked to you about this last week. Sandeep originally sent them a disapproval letter and they replied. This is a response to those comments. This will go to Mary and DOJ after you, so please review and let me know if you have any questions. If at all possible, I'd like to get this to Mary and DOJ this week. Mary and I are meeting the consultant on site March 31 and I'd like to have them receive this before then so they can ask us anything if they want while we are there. Thanks!
